<b>Gardening</b> 4/23-4/28 <b>Letter: H</b>	What plants need to grow	Parts of a flower	Planting	Planting a number line	Sorting seeds

## Crayon College-Bourne

Dear PreK Families,

What a fantastic month we have planned. Our topics will be Spring, Gardening, Rebirth, and Metamorphosis. We will be working on a variety of science, math, language development, vocabulary, social studies, fine and gross motor skills. On the 14<sup>th</sup> we will be having a share-a-lunch, if you could sign up to bring something toward the end of this first week that would be great. I have begun to send home our monthly packets again, as we are starting to get back into our routine. I will begin working on assessments toward the end of the month, they will be different than we had in the past, but just as good. If you would like to have a parent/teacher conference to discuss the assessment, I will plan to do those in May.

I have been noticing some of the nutritional value in our lunches have been decreasing. As you will remember, nutrition is a daily lesson, please be sure your child has nutritional choices in their lunches such as vegetables and fruits (fruit snacks are not considered a fruit). Some great choices are: carrot sticks, celery sticks, apple slices, grapes, cherry tomatoes, bananas, blueberries, strawberries, cucumber slices, etc.

As the weather is beginning to get warmer, please be sure your child is dressed appropriately. We will continue to go out every day. As always if you have any questions, please feel free to speak to me.

Have a sunshiny month,

Jodi
